Here is how we will change the retail to smart Retail

Time Attendance System:

AHALTS Multi Device, Multi mode, Multi location , Geo fenced global time and attendance feature allows the Retail teams to mark their time and attendance from the multiple access control devices or their mobile app . The time sheets pass through a real time audit and flow to the payroll and activity services .

Cognitive Work Load And Scheduling with continued shifts and overtime

The Retail Sector has a very dynamic work load changing every moment. The current legacy systems cannot handle these scenarios and hence the HR teams are always struggling to manage these workloads and these are so complex that its practically becomes impossible to get a optimal scheduling and rostering. HRSERP breaks the work into activities and cognitively gives a tuning index for the HR Team to tune the workforce with a work load You can grasp the work information of each employee, understand the operation of the human resources of the organization, prepare and introduce the work of the staff in advance, and improve the work efficiency.

Here is how we will change the retail to smart Retail

Transportation and Goods Vehicles Monitoring

AHALTS provides a seamless Transportation and Goods Vehicles Monitoring
