Brief Introduction of the Company and its Operations

Headquarters : Jaipur, India

AHALTS : Our Clients' Business Success is Our Goal

Business Overview:

We operate with innovation in six major divisions:

AI and Micro service Management Platform, HRMS (Human Resource Management System), Action and Business Management Platform, Knowledge & Learning Management Platform, Total Workforce Management (TWM), Services & Productivity Solutions

“ **AT AHALTS,**

we envision a future where technology and human resources seamlessly converge to redefine business management. Through collaboration with our partners and the dedication of our team, we aim to deliver unparalleled, innovative solutions that justify a premium investment. Our goal is to set new standards in HR technology, offering unmatched value and empowering businesses worldwide to excel in an evolving marketplace.

”

ARUN PURI

FOUNDER & CEO

WHAT DIFFERENTIATE US -

Microservices: Issues with data control and integration, integrated AI and collaboration

AHALTS Solution: Multitenant architecture with hybrid data control, virtual identity, and robust MFA, Face Recognition and AI

HR Solutions: Created in silos, leading to inefficiencies.

AHALTS Solution: Integrated HRMS built on AI and microservices, automating most HR tasks.

Strategic Talent: SMEs and large organizations struggle with strategic alignment and efficiency.

AHALTS Solution: RDRMM-based platform providing strategic guidance and efficient communication.

LMS Platforms: Inefficient and costly in high attrition environments.

AHALTS Solution: Adaptive LMS linking training to job-specific tasks, minimizing recruitment-to-floor time.

AHATLS: AI-Driven Access Control and Identity Management

AHATLS AI and Microservice Management Platform stands out with its ready-to-run access control Single Sign-On (SSO) service. This unified service offers automatic KYC for users and supports multi-identity management for applications. Additionally, it provides Machine-to-Machine (M2M) communication and virtual identity for designations, ensuring that work processes follow designations rather than individuals

AHALTS Single Sign-On

Enhanced Security:

- Reduces password fatigue.
- Decreases the risk of phishing and password-related security breaches.

Improved User Experience:

- Users log in once and gain access to all integrated applications.
- Simplifies the login process for employees.

Efficiency:

- Saves time for IT departments.
- Reduces the number of help desk calls related to password issues.

AHALTS SSO Key Features –

- Integration Network
- Desktop and Mobile SSO
- Integrated Messmail
- sign-in widget
- Unlimited SAML and OIDC Authentication

For more details, visit the [AHALTS Single Sign-On page](#).

AHALTS Multi-Factor Authentication

Enhanced Security:

- Adds an extra layer of protection beyond just passwords.
- Helps prevent unauthorized access even if passwords are compromised.

Compliance:

- Meets industry regulations and standards for data protection.

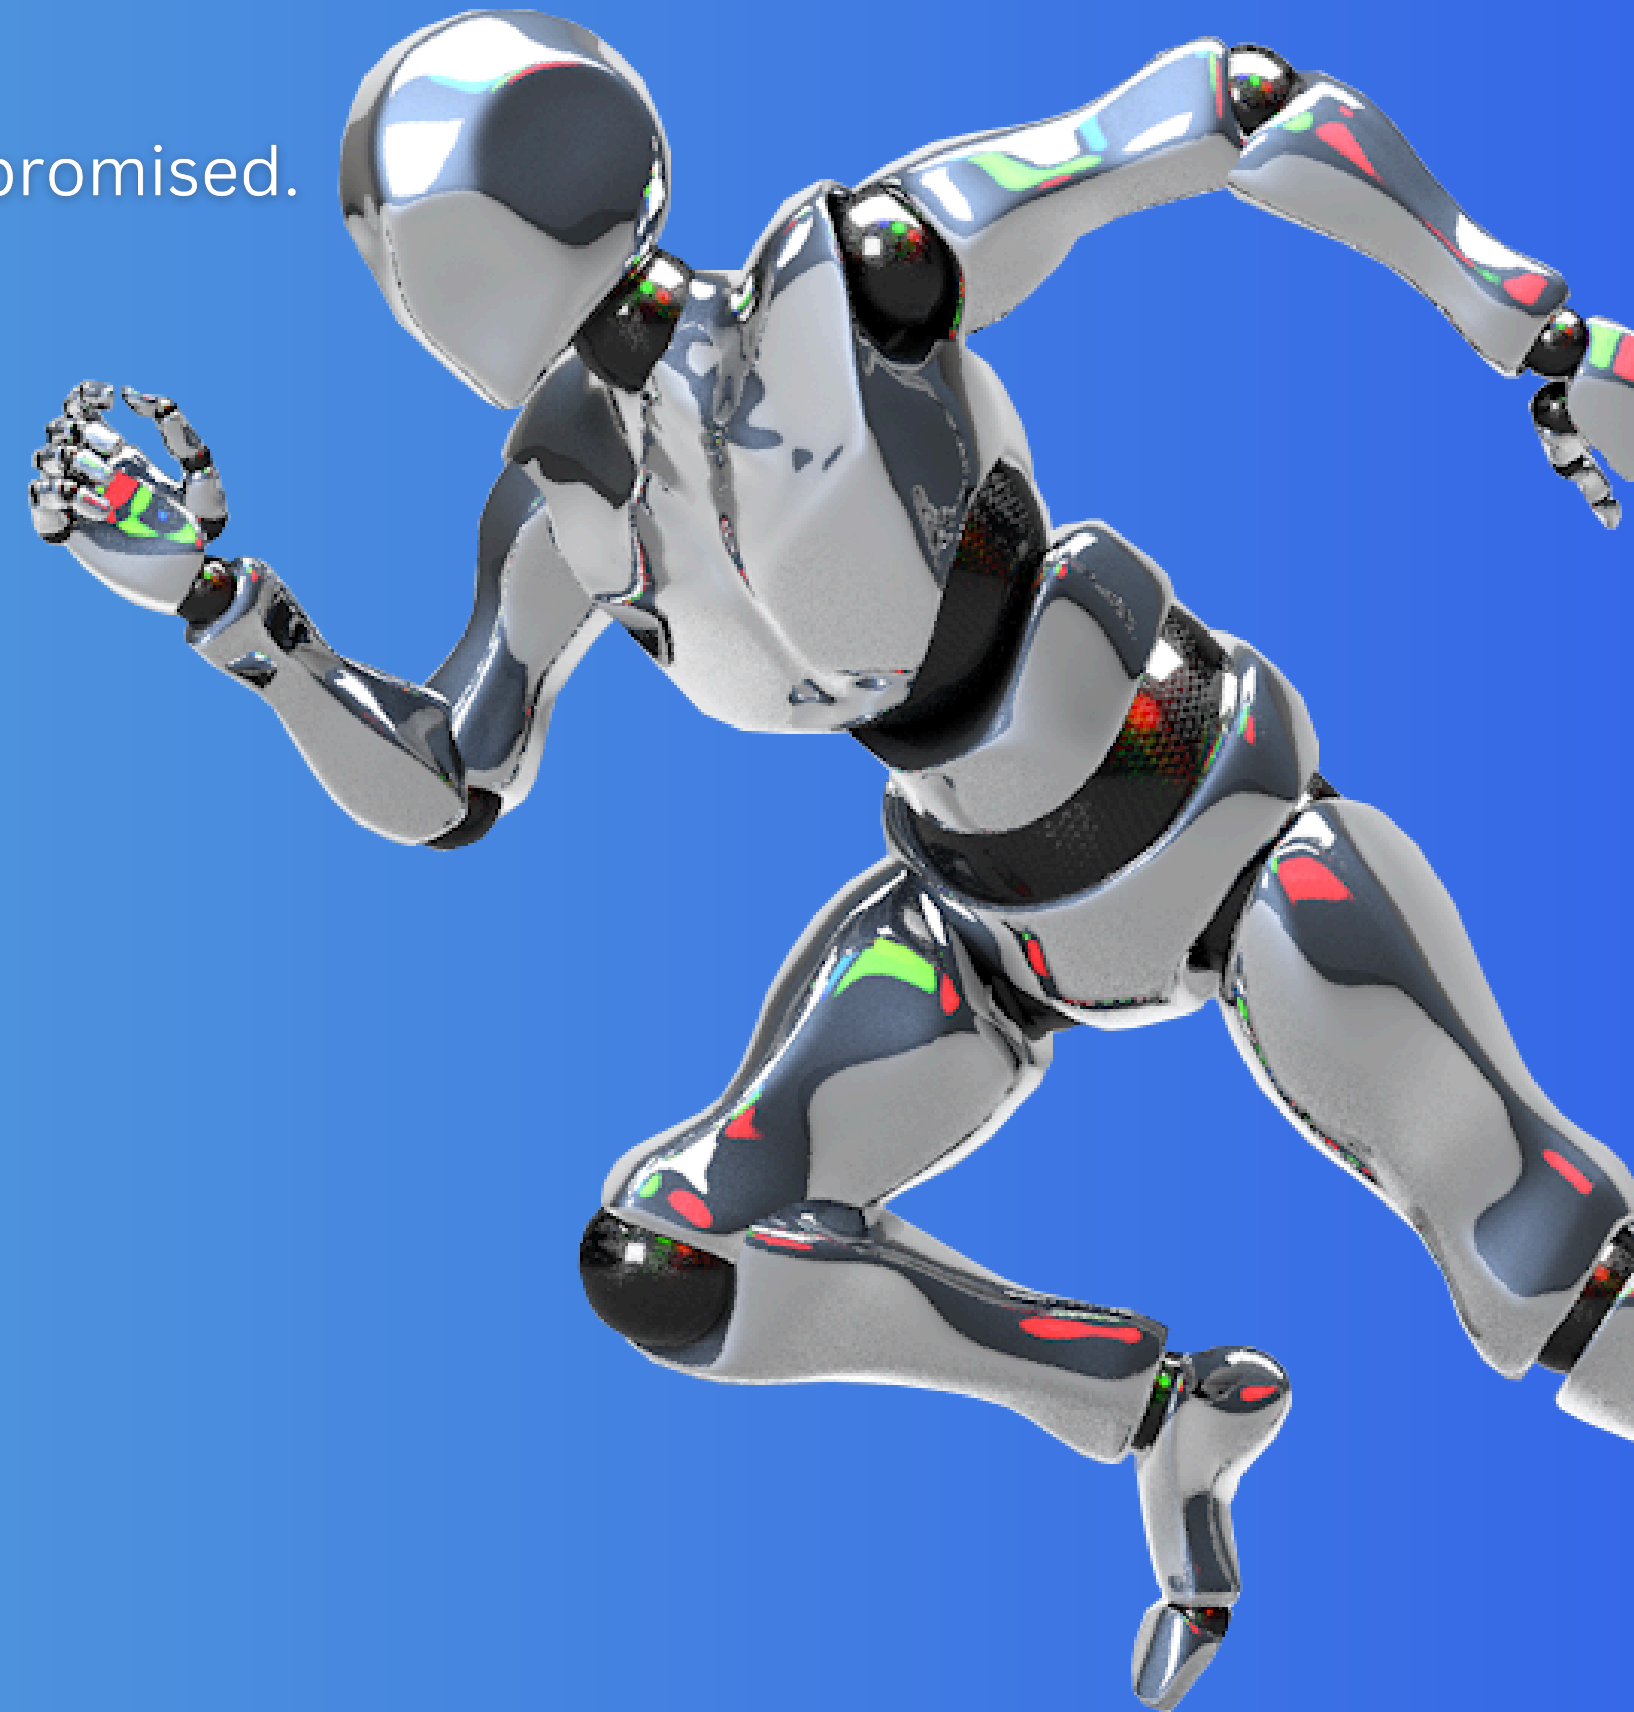

User Confidence:

- Provides users with confidence that their data is secure.

AHALTS MFA Key Features –

- Facial Recognition
- Finger Scan
- Aadhar Authentication
- Security question
- Verify OTP
- Email as a factor
- Password Blacklist
- Specified IP zones
- MFA registration APIs

For more details, visit the [AHALTS MFA page](#).

The AHALTS Universal Directory is a comprehensive solution for centralized identity management, designed to Streamline user access and enhance security.

Centralized User Management:

- Manage all user identities in a single, unified directory.
- Simplify administration with a single source of truth for user data.

Seamless Integration:

- Integrates with various applications and services, ensuring consistent access control.
- Supports multiple identity providers and authentication protocols.

Enhanced Security:

- Multi-factor authentication (MFA) to secure user accounts.
- Role-Based Access Control (RBAC) to manage permissions and access levels.

Scalability:

- Easily scales to accommodate growing organizations.
- Handles millions of user records with high performance.

Compliance:

- Meets industry standards and regulations for data security and privacy.
- Comprehensive audit trails for monitoring and compliance reporting.

For more details, visit the [AHALTS Universal Directory page](#).

Introducing Saarthi

Your Conversational AI and BI Chatbot Transforming Business Interactions with Advanced AI

AI Saarthi is a cutting-edge conversational AI and BI chatbot designed to enhance your business interactions. Powered by advanced language models like ChatGPT, Saarthi provides seamless communication, robust content moderation, personalized experiences, and powerful BI integrations.

Key Features of Saarthi

- Conversational AI: Powered by ChatGPT and other LLMs for intelligent responses.
- Content Moderation: Ensures a consistent knowledge base by eliminating contradictory information.
- Personalized Experience: Tailored interactions based on user demographics and preferences.
- BI Integration: A simple \$ sign query transforms Saarthi into a BI bot for data analysis.
- Face Recognition & Object Detection: Use Saarthi as a robot or 24/7 companion with minimal coding.
- Instant Access: Seamlessly integrated with chat applications for accessibility anytime, anywhere.

Key Features of Saarthi

The image shows a smartphone screen displaying the Saarthi app interface. At the top, there is a navigation menu icon and a text input field labeled "Select Purpose: Other". Below this, there are two sections: "You" with a radio button and the text "SALES MIS, SALES", and "Answer" with a radio button. The main content is a table with the following data:

Date	Year	Metric	Amount
2023-07-07	2023	TotalSale	0.00
2024-07-07	2024	TotalSale	28755.32
MTD	2023	TotalSale	81075.00
MTD	2024	TotalSale	169443.02
YTD	2023	TotalSale	7771710.83
YTD	2024	TotalSale	8801005.19
2023-07-07	2023	TotalPax	0
2024-07-07	2024	TotalPax	12
MTD	2023	TotalPax	60
MTD	2024	TotalPax	44
YTD	2023	TotalPax	2390
YTD	2024	TotalPax	1644
2023-07-07	2023	TotalFNBSale	0.00
2024-07-07	2024	TotalFNBSale	8351.94
MTD	2023	TotalFNBSale	58130.92

- Ask Drive: Extract and manage data from documents effortlessly.
 - Image Generator: Create and edit images with ease.
 - Business Tools: Develop business plans, and strategies, and analyze BI reports.
 - Job description: Generate customized resumes and cover letters.
 - Creative and Technical Assistance: Write music, debug code, create media files, and more.
 - Integration with HRMS, Action and Business Management, KMS, LMS, workforce management
- AHALTS Solutions

Personalized and Versatile Interactions

Personalized and Versatile Interactions (PPM), provide a tailored user experience.

Versatile Applications:
