Brief Introduction of the Company and its Operations

Headquarters : Jaipur, India

AHALTS : Our Clients' Business Success is Our Goal

Business Overview:

We operate with innovation in six major divisions:

AI and Micro service Management Platform, HRMS (Human Resource Management System), Action and Business Management Platform, Knowledge & Learning Management Platform, Total Workforce Management (TWM), Services & Productivity Solutions

“ **AT AHALTS,**

we envision a future where technology and human resources seamlessly converge to redefine business management. Through collaboration with our partners and the dedication of our team, we aim to deliver unparalleled, innovative solutions that justify a premium investment. Our goal is to set new standards in HR technology, offering unmatched value and empowering businesses worldwide to excel in an evolving marketplace.

”

ARUN PURI

FOUNDER & CEO

WHAT DIFFERENTIATE US -

Microservices: Issues with data control and integration, integrated AI and collaboration

AHALTS Solution: Multitenant architecture with hybrid data control, virtual identity, and robust MFA, Face Recognition and AI

HR Solutions: Created in silos, leading to inefficiencies.

AHALTS Solution: Integrated HRMS built on AI and microservices, automating most HR tasks.

Strategic Talent: SMEs and large organizations struggle with strategic alignment and efficiency.

AHALTS Solution: RDRMM-based platform providing strategic guidance and efficient communication.

LMS Platforms: Inefficient and costly in high attrition environments.

AHALTS Solution: Adaptive LMS linking training to job-specific tasks, minimizing recruitment-to-floor time.

THE OPERATING SYSTEM FOR BUSINESS

AHALTS has everything you need to boost your revenue, to step up productivity , and manage all day-to-day activities.

As a whole AHALTS would serve as your one-stop ERP Ecosystem

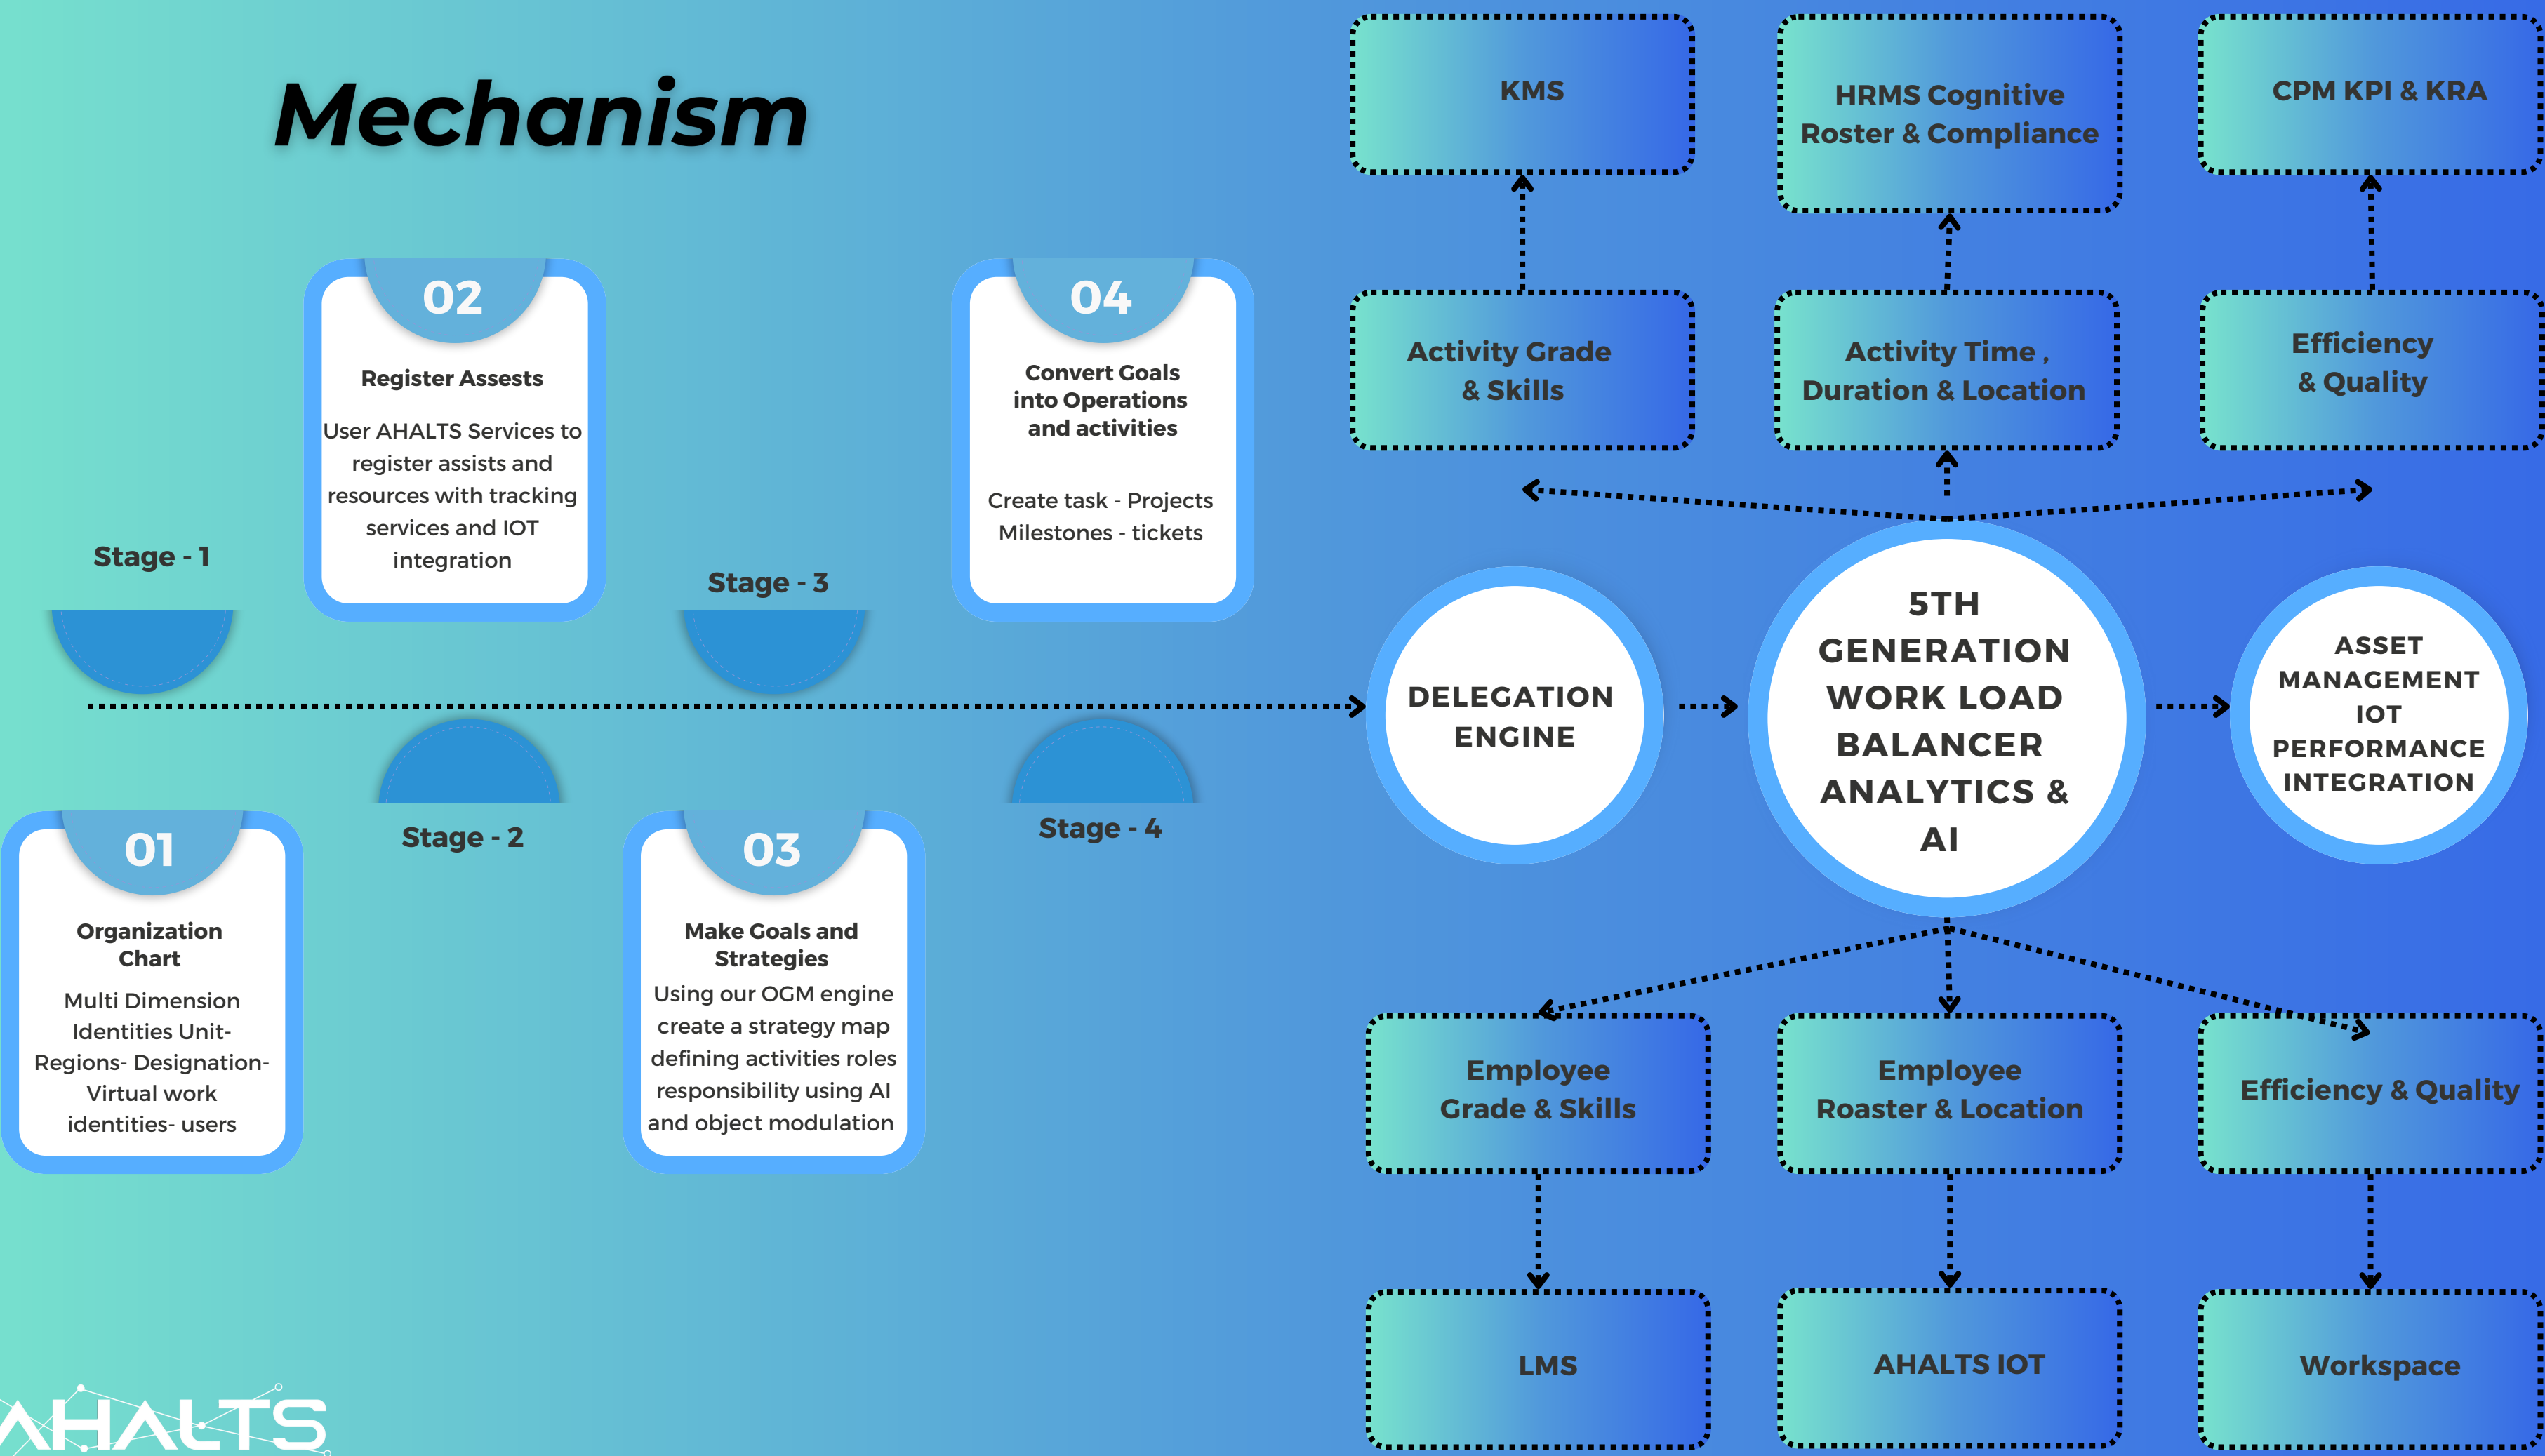

Action and Business Management Platform

- Built on the patented Risk Distributed Resource Management Model (RDRMM), which hedges against business cycle collapse and ensures risk management for each business action.
- OGM Planner - Goal, Vision, and Mission Planning and integration with Strategy
- Strategy Planning and Execution
- BSC Perspectives and Scorecards
- Workflow and Routing
- Dynamic Rule Engine
- Real-Time Notification and Reminders
- Resource and Assets Management
- Project Management and Integration with Kanban Board
- Robust Activity Management; Tasks, Checklist, Milestones.
- Complaint Management
- Training Management
- Performance Management
- Reports and Dashboards
- Integration with AI & Microservice Platform, HRMS, Communication, Workspace, Calendar, Delegation Engine, Knowledge Management System

Mechanism

OGM Planner

- **Define and Plan Organization Goals, Vision, and Mission in SMART Templates in AI-built KMS**
- **Delegated work to the right skill, right grade, and right location at the right time with a balance of activity, position, and employee grade to optimize cost.**

Strategy Planning and Execution

STRATEGY MAP

- Graphical depiction of the organization's strategy
- Cause-and-Effect Relationships with Strategy and Goals
- Align strategic objectives with key performance indicators (KPIs).

STRATEGY TREE

- Hierarchical structuring of goals and actions.
- Akin to a decision tree.
- Easy to plan and execute strategies effectively

STRATEGY PLANNING

- Goal Setting
- Vision and Mission Statement
- Strategy Initiatives Planning
- Resource Allocation
- Monitoring and Compliance
- Risk Management Planning

STRATEGY EXECUTION

- Clear Assignment and Accountability
- Clear Communication
- Integrate with Action and BPM to execute strategies
- Monitored KPI Score

BSC Perspectives and Scorecards

Utilize strategy maps that outline business goals within customized or Balanced Scorecard (BSC) perspectives; financial, customer, internal processes, and learning and growth.

Workflow and Routing

Challenges:-

- Do You have any Work planning tool that aligns all work activity with a single strategy?
- Are your work integrated with resources, cost, and time factors?
- Can you financially quantify your work?

• Features:-

- 1.Elaborate Template Defining and Planning resource requirements based on work.
- 2.Unlimited / Dynamic Categorization (Transforming / Transform) of Resource in Company Resource Pool.
- 3.Defining Resource Delegation and Accountability based on resource transfer from one user to another as per operational need.
- 4.Analytical Tool defining actual time and resource needs based on workload and tracking available resources.
- 5.Identifies the skills and competencies required for a project and provides automated job requisition integration.

How It Benefits Your Organization

- Easy planning tool.
- Build on RACI methodology.
- Quantify Projects based on time and cost and helps management in designing budgets.
- Easy resource transfer and tracking.

Dynamic Rule Engine

- **Auto Delegation**
- **Auto Forward**
- **Forced Attendance with Daily Tasks**
- **Forced Attendance with Handover**
- **Forced Activity to complete only after report submission**
- **Dynamic Rule Library in Activity Management**

Resources Management

Create, Define, Assign, Track and integration resources

RESOURCE CATEGORY & GROUP

01

- Create Resource categories & groups based on different types
- Define Specification - Name Library

RESOURCE LIBRARY

02

- Define Purchase details, Depreciation
- Resource life
- Barcode -Resource ID
- Resource Location
- Resource Pooling
- Resource Image
- Resource Lifecycle management

RESOURCE ALLOCATION

03

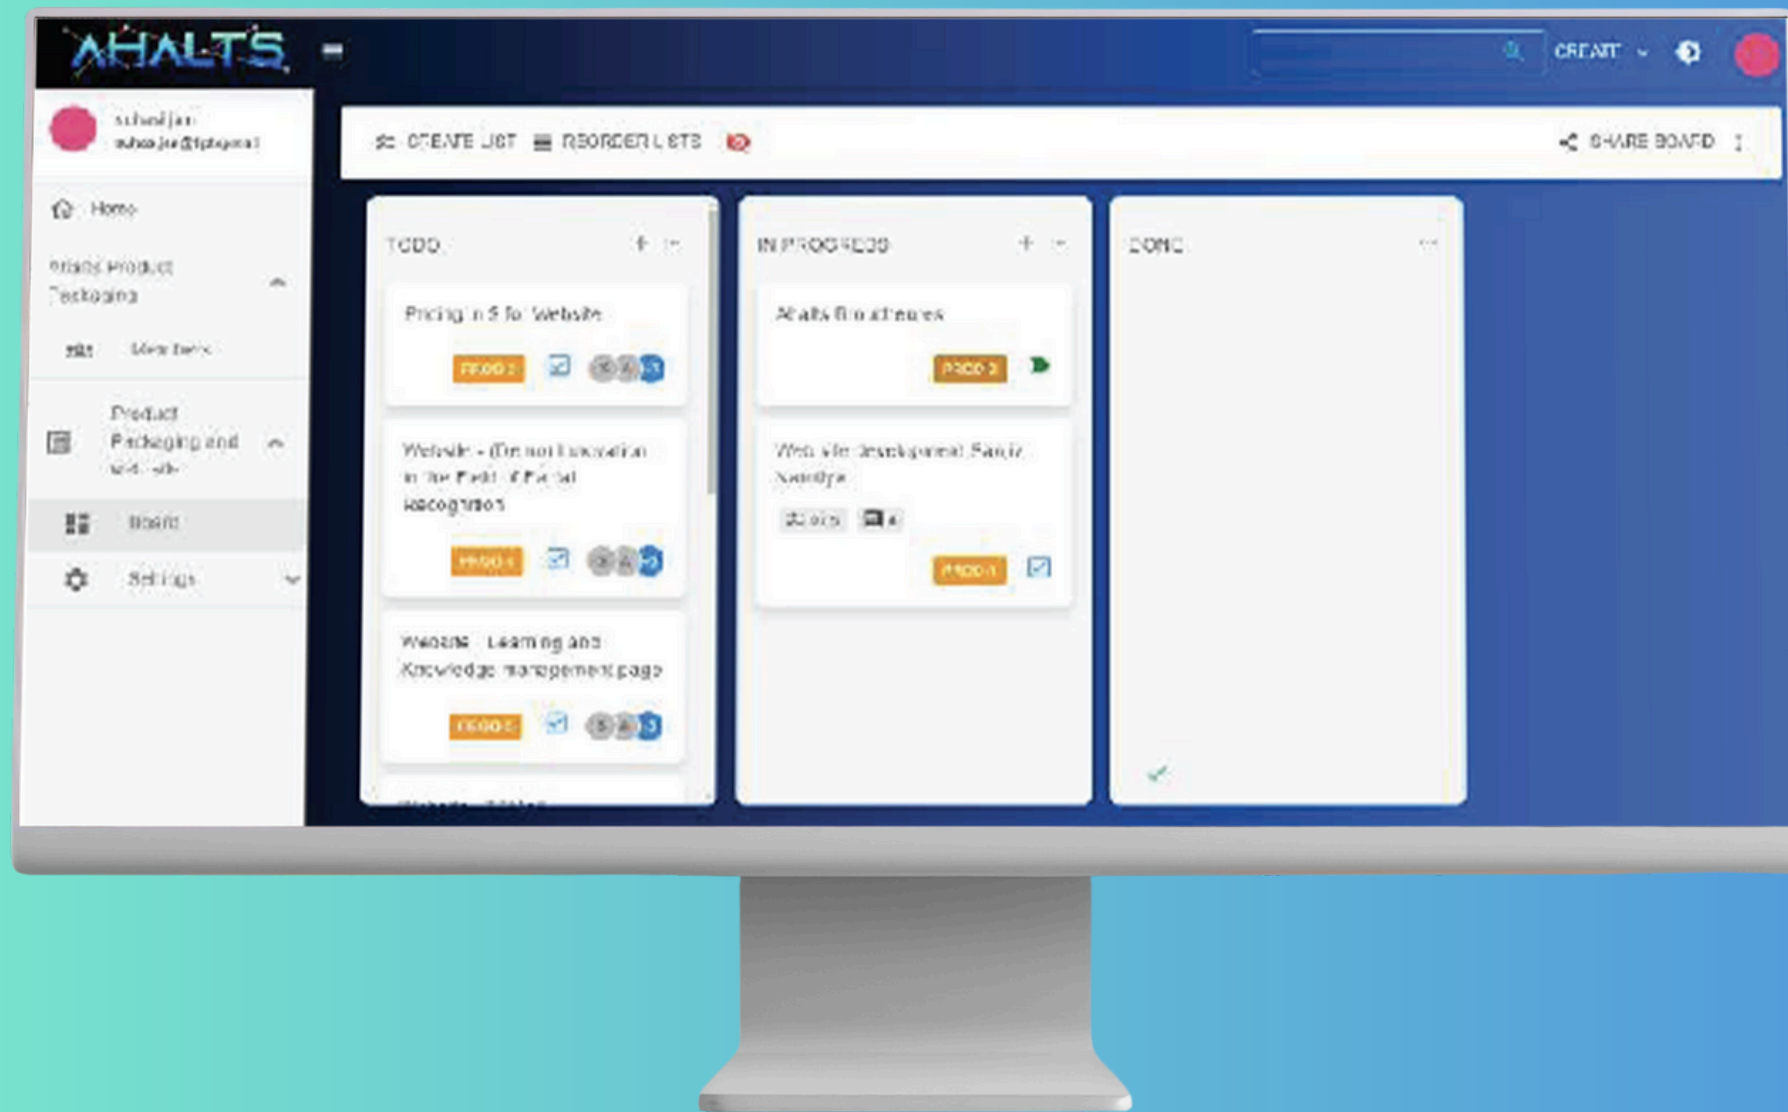

- Resource Transfer
- Resource Track
- Resource
- Accountability

RESOURCE INTEGRATION

04

- Resource Checklist
- Integration with activity management
- integration with HRMS
- Integration with KMS & LMS
- Integration with AI & Microservice Platform

Project Management and Integration with Kanban Board

- Create Project Deadlines
- Integrate Resources, Tasks, Checklists, Data Forms
- Integrate with KPI for Performance tracking
- Team Collaboration
- Integrate with Employee Performance
- Integrate with the Kanban Board for quick management and communication with the Team

Robust Activity Management; Tasks, Checklist, Milestones.

- Task Lifecycle Management
- Task Scheduling and Recurrence
- Inbuilt RACI methodology for clear accountability
- Dynamic Rule Assign with Integration of compliance on attendance punching
- Task integration with Forms, Reports, and checklist
- Task parameters like; time-variant, time-invariant, Auto allot, Must Allot, Delegation Hierarchy, etc
- Integrate with Strategy Map and KPI for tracking overall performance
- Task Scoring based on Efficiency, Duration, Quality, and reporting
- Checklist can integrate resources and Location
- Work Checklist – Systematic Work Sequence listed for detailed operation and monitoring
- Job Checklist – Consolidated Job Skills and Competencies to create organic Job Description
- Milestones – Combination of Tasks, Checklist
